**Job Description: GenAI Creative Volunteer/Creator (Manga & Anime Focus)**
*Unpaid Position | Remote/Flexible | Open to Students & Enthusiasts*

**About Us**

We are an innovative community leveraging Generative AI (GenAI) to revolutionize manga and anime creation. Our mission is to empower creators with cutting-edge tools while fostering a collaborative space for learning and innovation. Whether you're a student, artist, or tech enthusiast, join us to explore the intersection of AI and storytelling!

**Role Overview**

We seek passionate volunteers/creators to experiment with GenAI tools in producing manga/anime content. This role is ideal for those eager to:

- Learn and apply GenAI techniques.

- Build a portfolio in AI-driven creative industries.

- Collaborate with artists, writers, and technologists.

**Responsibilities**

1. **Content Creation**:

   o Use GenAI tools to generate concept art, character designs, or story drafts for manga/anime projects.

   o Refine AI outputs with creative input to align with artistic vision.

2. **Learning & Collaboration**:

   o Participate in workshops on GenAI tools, prompt engineering, and ethical AI use.

   o Collaborate with teams to integrate AI into traditional workflows.

3. **Project Development**:

   o Contribute to open-source AI tools tailored for manga/anime creation.

   o Document workflows and share insights via blogs/tutorials.

4. **Community Building**:

- o Engage in peer reviews and brainstorming sessions.

- o Help organize virtual exhibitions of AI-assisted creations.

**Who We're Looking For**

- **Enthusiastic Learners**: No prior AI experience required! Curiosity and willingness to learn are key.

- **Creatives**: Artists, writers, or manga/anime fans interested in exploring AI's creative potential.

- **Tech Explorers**: Students or professionals in CS, design, or related fields eager to apply GenAI.

- **Collaborators**: Team players excited to share ideas and grow with a community.

**What We Offer**

- **Skill Development**: Hands-on training in GenAI tools and creative workflows.

- **Portfolio Building**: Showcase your AI-assisted works in collaborative projects.

- **Networking**: Connect with industry mentors and like-minded creators.

- **Flexibility**: Volunteer hours tailored to your schedule.

**How to Apply**

1. Submit a brief **statement of interest** (200 words) explaining your passion for manga/anime and AI.

2. Share **1–2 samples** of your work (art, writing, code, or even a creative idea!). No prior AI work required.

3. Email to: [hr@mikomiko.ai] with subject: **"GenAI Creator Application – [Your Name]"**

**Application Acceptation: Starting from May 25 2025**

**Join Us to Shape the Future of Storytelling!**

*We are an equal-opportunity community. All backgrounds and skill levels are welcome.*
